

The image shows a bright, modern dining room. A large, multi-paned arched window dominates the background, offering a view of a lush green landscape with trees and a body of water. In the foreground, a round, dark-stained wooden table is set with a woven basket of fruit. Four chairs with a bold, geometric pattern in shades of brown and beige are arranged around the table. Two tall, slender potted plants with green foliage stand on either side of the window. The room has a vaulted ceiling and light-colored wood paneling.

Mezzo®

AESTHETICS AND TECHNOLOGY...REDEFINED

Alside®

Welcome Home

MEZZO WINDOWS . . . QUALITY AT ITS BEST

It's the ultimate collaboration. Elegant, sleek style mixed with take-charge strength and energy efficiency. The aesthetics are everything you want in a window and the performance power is cutting-edge. Mezzo Windows are made for you.

A LEGACY OF EXCELLENCE AND INNOVATION

There is so much more to the windows in your home than the frame, sashes and glass. The true substance is the quality and expertise built into every step of the design and manufacturing process. In choosing Alside for your window installation, each window is custom-made to fit your window openings precisely. Our more than 75 years of industry excellence stands strong as our legacy of leadership and trust, where customer happiness always comes first.

We also take special pride that Alside windows provide exceptional "Custom-Crafted in America" quality, which not only champions the tradition of American ingenuity and craftsmanship, it also fortifies our nation with quality jobs and economic dollars.

EdgeForce

NARROWLINE FRAME AND SASH

The beauty of our EdgeForce narrowline frame and sashes is subtle and substantial at the same time. The sleek design is visually clean and contemporary, with a larger glass area for exceptional daylighting and outside viewing. And beneath the elegance? Internal chambers are meticulously engineered for structural integrity and enhanced energy efficiency.

CoreFX

COMPOSITE REINFORCEMENT

CoreFX is a structural component that never quits. This innovative low-conductive composite reinforcement in the sash meeting rails is designed for energy efficiency and the secure mounting of hardware.¹

Defense-Tek

SECURE LOCKING SYSTEM

Stylish and strong, this low-profile secure locking hardware features an indicator that tells you if your windows are left unlocked. But the true beauty of Defense-Tek is its end-of-throw cam shift locking action, expertly constructed for increased protection.

Forecaster

TRUE SLOPED SILL

Forecaster elevates both the appearance and performance of Mezzo Windows with its smooth, uniform design. The true sloped sill is expertly crafted to provide a highly efficient drainage system that helps promote water runoff without the use of weep holes.²

HP³

TELESCOPING SILL

The benefits distinction here is three-fold: protection from air and water infiltration, increased structural stability and enhanced beauty. The integrated telescoping sill dam effortlessly blends strength with style.

Gatekeeper

SASH-TO-SILL INTERLOCK

When harsh wind and weather hit your home, Gatekeeper stands strong. Traditional sloped sill designs can allow the sash to bow during powerful winds, but with Gatekeeper interlocking sash-to-sill technology, the sash is channeled firmly into the window frame for a unified wall of strength. Combined with three layers of weatherstripping, Gatekeeper delivers unmatched protection, as well as peace of mind.

Ocular

SCREEN BULB SEAL

Improved form and functionality is the focus of our Ocular screen bulb seal. The compression bulb aids in the installation and removal of the extruded aluminum screen. The snug fit also helps eliminate light penetration between the screen and frame and helps block insect access.³

For enhanced appearance and ease of installation, two additional frame options also are available.⁴ Further improve the energy efficiency of Mezzo Windows with a triple-pane insulated glass option.

1-3/8" Nail Fin Set Back

1-3/8" Nail Fin Set Back
with J-Channel Adapter

Triple-Pane Glass

¹Double-hung base model will automatically be upgraded to ST (steel reinforcement) for all units ordered in excess of 48" wide or 84" high.

²For larger size windows or to meet specific DP/PG ratings, optional weeps/performance package must be ordered.

³Available only with the full screen option.

⁴Not all nail fin options are available in all woodgrains. See your Alside Representative for more details.

Beauty Forged with Performance

The closer you look, the more you'll see why Mezzo is a standout choice for your home.

FULLY FUSION-WELDED FRAME AND SASH CORNERS create superior strength and a clean, low-profile finished look.

DUAL-PANE, DOUBLE-STRENGTH GLASS increases strength, durability and insulation.

AIRTIGHT INSULATING CHAMBERS enhance thermal performance and durability.

DUAL BULB SEALS along the bottom of the lower sash improve the appearance and create a tighter seal between the lower sash and true sloped sill when the window is closed and locked.
(Double-hung and single-hung only.)

DUAL VENT STOPS for limited and convenient opening of the window for ventilation.
(Not available on single-hung or single-sliding windows.)

HIDDEN SCREEN TRACK creates a clean-line design for enhanced visual appeal; half screens are standard, optional full screens available.⁵

⁵Full screens are standard on exterior color-finished windows.

High-Performance Glass Packages – Designed for Energy Savings Year-Round.*

DISCOVER SUPERIOR QUALITY AND ENERGY EFFICIENCY FOR YOUR HOME

Mezzo's advanced design innovations paired with ultra-efficient insulating glass delivers exceptional functionality and style. Mezzo Windows provide a clean installation because they require no additional wall construction, in comparison to stock windows. Each window is custom-made with various frame and glass options to create the perfect window system for your home. Various selections include:

Frame Type

Double- or Triple-Pane Glass

Sized to Exact Opening

Mezzo Windows achieve exquisite detail you'll appreciate every day, from every angle.

Reducing energy loss is often the number one reason for purchasing replacement windows. Windows are roughly 80% glass, so it's important to choose the ideal glass system for your home and climate. Mezzo Windows are built with a dual-pane insulating glass unit** with double-strength glass and the Quanex® Super Spacer® structural foam spacer.

Upgrading to a high-performance Low-E (low-emissivity) insulated glass package will also enhance year-round energy savings. Low-E glass features a virtually clear, metallic coating that acts as a thermal mirror, reflecting radiant heat back into your home during the winter and reducing unwanted solar energy in the summer.

ENHANCED CAVITY FOAM OPTION

Mezzo Windows' innovative technology utilizes carbonized foam inserts in select channels of the head, jamb and sill to create a highly effective thermal barrier against energy loss. The graphite-enhanced foam insulation outperforms typical EPS foam insulation in preventing air infiltration, thereby helping to reduce heating and cooling needs. Available in single-hung, double-hung, sliding and picture windows.

TAKE A CLOSER LOOK AT MEZZO'S TRIPLE-PANE, ULTRA-EFFICIENT GLASS SYSTEM

Further increase the energy efficiency of your Mezzo Windows with triple-pane glass protection. This high-performance design features a 1" thick (nominal) glass unit, three panes of glass, up to three surfaces of Low-E technology and two spaces of argon or krypton gas, along with the Super Spacer® structural foam spacer for a powerful energy-saving shield. You'll also appreciate the improved overall comfort and quieter indoor ambiance of your home.

Winter Energy Savings:
Low-E insulating glass helps reduce heat loss by reflecting warmth back into your home.

Summer Energy Savings:
Low-E helps block unwanted solar heat penetration to help conserve air-conditioning use.

Above and Beyond –

Mezzo Meets ENERGY STAR® Requirements!

The ENERGY STAR label certifies that the window is a positive choice for energy efficiency, fuel savings and the environment. ENERGY STAR is a government-backed voluntary partnership program sponsored by the U.S. Environmental Protection Agency and the U.S. Department of Energy to help consumers recognize energy-efficient products. It's good for you and good for the environment!

Mezzo Windows meet or exceed ENERGY STAR requirements – and are certified and verified for energy-saving performance. The dual-pane, double-strength insulated glass, energy-engineered frame and sash and low-conductive composite reinforcements are just part of the advanced design that puts Mezzo in a class by itself.

- Northern
- North-Central
- South-Central
- Southern

Mezzo Windows and Alside Patio Doors are available with a variety of glass options. Please consult your window professional to help you choose an energy-efficient glass package to meet the ENERGY STAR requirements for your home and climate zone.

GLASS PACKAGES SPECIFIC TO YOUR NEEDS

Insulated glass units increase the energy efficiency of your windows beyond ordinary clear glass and can tailor the window to your specific climate challenges. That's why every Mezzo window comes standard with our ClimaTech insulating glass package which may help in lowering your energy costs while further reducing the consumption of fossil fuels.

Double-Hung Windows

FOREVER IN STYLE

Mezzo's refined and purposeful design stays true to the classic double-hung style, yet exudes a cool, contemporary elegance with clean lines and crisp corners. The double-hung window is equally loved for its carefree functionality. No need to struggle with hard-to-reach areas. Both sashes tilt in to allow easy cleaning from inside the comfort of your home.

Built for everyday wear and tear, the expertly constructed sashes raise and lower easily on a constant force balance system, thus eliminating sash cords, weights and pulleys. Both the beauty and smooth operation of Mezzo Double-Hung Windows will be a simple pleasure.

- Narrowline frame and sashes with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- Integrated sash-to-sill interlock provides a unified wall of strength, fortifying the sash to help prevent bowing in harsh winds.
- Low-conductive composite reinforcement⁶ in the meeting rails allows for secure mounting of hardware and improves energy efficiency.
- True sloped sill creates a highly efficient drainage system to inhibit water and debris accumulation.
- Constant force balance system provides smooth raising and lowering of sashes.
- Hidden screen track for a neat, clean appearance.

Comfortable, playful and
practical,
home is inspired by life.

Near Right: The easy-to-clean feature of Mezzo Double-Hung Windows adds to its popularity. Simply tilt in the sashes to access both sides of the glass from inside your home. Single-hung windows also are available, with a tilt-in bottom sash only. **Far Right:** Narrowline frame and sashes enhance the aesthetic appeal, inside and out.

Wide-open volume and natural light,
the perfect stage
 for the perfect day.

Sliding Windows

SIMPLICITY AND EASE

Visually sleek and deceptively strong, sliding windows are distinct in their slim silhouette, ample glass area and smooth gliding action. Mezzo Dual Sliding Window sashes slide horizontally for easy opening and closing and lift out for convenient cleaning.⁷ The heavy-duty construction and weathertight fit ensure excellent performance and protection.

- Narrowline frame and sashes with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- Insulated glass unit with double-strength glass and Super Spacer® structural foam spacer system provides thermal protection and longevity.
- Embedded, multichambered construction creates airtight insulating compartments for thermal performance and strength.
- Low-conductive composite reinforcement in the meeting rails allows for secure mounting of hardware and improves energy efficiency.
- Nylon-encased dual brass roller system for easy-glide performance.
- Hidden screen track for a neat, clean appearance.

Above: Quiet and smooth operation is assured with a precision-engineered roller system.

⁷Sashes on larger sliding windows may be difficult to lift out due to weight.

Picture Windows and Special Shapes

SOMETIMES BOLD, ALWAYS BEAUTIFUL

The true beauty of the picture window is its versatility. Whether grand or small, alone or combined with other window styles, Mezzo Picture Windows and Special Shapes make a statement of quality. The narrowline frame and full glass exposure offer an unobstructed outdoor view, while the high-performance insulating components provide a strong shield of protection against harsh weather and energy loss.

PICTURE WINDOW

Above: Picture windows and special shapes invite creativity when designing your home's window system. Use alone or combine multiple units to create a dramatic focal point.

- Narrowline frame with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- High-performance insulated glass unit with double-strength glass and Super Spacer® structural foam spacer system provides thermal protection and longevity.
- Embedded, multichambered construction creates airtight insulating compartments for increased thermal performance and strength.
- Choose from a variety of architectural styles, including Circle Top, Quarter Arch, Eyebrow, Half Eyebrow, Ellipse, Full Circle, Hexagon, Octagon, Pentagon, Cathedral, Trapezoid, Triangle and more.

SPECIAL SHAPE

Casement and Awning Windows

THE PINNACLE OF UTILITY AND DESIGN

There's more to casement and awning windows than meets the eye. There's history and practicality, merging the old-world craftsmanship of a charming crank handle with the refined details of today's advanced window technology. Featuring a low-profile, easy-touch nesting handle, the casement sash gently opens outward, while the awning window opens up and out.

CASEMENT WINDOWS

- Beveled exterior sash design creates the appearance of a larger glass area with an attractive slimline look.
- Step-down frame with compression-type inner bulb seal achieves a tight seal during inclement weather.
- State-of-the-art hinge system provides multidirectional ventilation and allows sash cleaning from inside the home.
- Positive crank mechanism permits easy operation when opening and closing the sash.
- Multipoint locking system ensures a tight seal and increased comfort.
- Multiple lite configurations available in a single mainframe.

AWNING WINDOWS

- Beveled exterior sash design gives the window the appearance of a larger glass area with an attractive slimline look.
- Heavy-duty, state-of-the-art hinge system provides easy operation when opening and closing.
- A dual locking system on each side of the window ensures a tight seal for added comfort.
- Multiple lite configurations available in a single mainframe.
- Combine with fixed lites for an expanded window design with refreshing airflow.

A refreshing
infusion
of personality and style.

CASEMENT WINDOW

AWNING WINDOW

Bay, Bow and Garden Windows

BRING OUT THE CHARACTER

A striking focal point, a cozy reading nook, a bright display of herbs and flowers – anything is possible with bay, bow and garden windows. Each of these windows can transform your room from basic to beautiful.

BOW WINDOW

BAY WINDOW

GARDEN WINDOW

BAY AND BOW WINDOWS

- 1-1/4" furniture-grade hardwood veneer is standard in the construction of head, seatboard and jambs.
- Head and seatboard are available in oak or birch veneer finishes and may be finished with your own paint or stain.[†]
- Internal sill pan adds greater protection against water infiltration.
- 3" or 5" high-density foam insulated seatboard option adds comfort and promotes energy efficiency.
- Heavy-duty turnbuckle hanging system; no external braces are needed.
- Exterior roof system is available with optional copper or painted aluminum roof clad kits.

GARDEN WINDOWS

- Fully welded mainframe for greater strength and stability.
- Clear 1" thick (nominal) insulated glass unit provides all-weather protection.
- Top sloped insulating glass panel is tempered for increased durability.
- Multipoint locking system for a tighter seal and added comfort.
- Available with white screens and white hardware only.

Sliding Patio Doors

LEGENDARY QUALITY WITH MODERN DETAIL

There's no better measurement for a patio door than performance. From a quality design and excellent construction to smooth operation and enduring beauty – our sliding patio doors are a premier choice. Each door combines superior manufacturing technology with artistic detail to provide an entry that's beautifully welcoming and always weathertight. Choose from three distinctive styles in Contemporary, Classic and French.

- Premium vinyl mainframe and sash extrusions are colored throughout – won't chip, peel, crack or warp and never need to be painted.
- Mainframe and sash feature a double-wall design and multichambered construction for increased strength.
- 1" thick (nominal) insulated glass unit with Super Spacer® structural foam system promotes energy conservation year-round.
- Dual internal/external weatherstripping on the sash for energy efficiency.
- Steel reinforcements at the interlocks and lock rails increase structural integrity.
- Precision-engineered stainless steel tandem roller system ensures easy and quiet door operation.
- Heavy-duty extruded aluminum screen features four adjustable rollers for smooth gliding.
- Available in a 2-panel style in 5', 6', 8' and Wisconsin-style widths; 3-panel styles in 9' and 12' widths; and a 4-panel style in a 12' width with center panels that open to each side.
- Choose from a variety of solid colors, woodgrain options, hardware finishes and grid patterns to complement your Mezzo Windows.

A naturally
beautiful
point of view.

Opposite page upper left: The Contemporary-style patio door features 3" symmetrical sash rails for a sleek, clean-line design. **Opposite page upper right:** The Classic-style door conveys traditional beauty with generous 5" sash rails. **Opposite page bottom:** The 5" top rail, 7" bottom rail and 3" side rails of our French-style door combines French door charm with floor space-saving functionality.

CONTEMPORARY AND CLASSIC PATIO DOOR HANDLES

FRENCH PATIO DOOR HANDLES

FrameWorks® Color Collection

EXCEPTIONAL STYLE FOR EVERY HOME

Architectural elegance, performance and strength – it all comes together in Mezzo’s curated color collection. Choose our beautifully resilient Black Exterior Laminate for the luxe look and feel of powder-coated aluminum, or select a FrameWorks exterior color featuring a polyurethane coating that’s remarkably strong and fade-resistant. Interior woodgrain laminates are performance-engineered for superb durability that maintains its attractive appearance over the life of the product.

EXTERIOR COLORS

INTERIOR COLORS

*Black Laminate is available with a White base only. White Woodgrain is available with a Beige or Classic Clay base only.

†† Extruded solid color. Note: Classic Clay base is not available with exterior color finishes.

Note: White, Beige and Classic Clay windows and patio doors will have matching interior hardware. Windows and patio doors ordered with a Light Oak, Dark Oak or Rich Maple interior will receive Pontiac Gold hardware. Windows and patio doors ordered with a Cherry or Foxwood interior will receive Brown hardware.

Design Options

GRID OPTIONS

Decorative grids lend an added measure of style and dimension to your windows. Contoured grids are available in 3/4" and 1" profiles with complementary colors and matching woodgrains.⁸ All grids are enclosed within the insulated glass unit for easy cleaning. First, select a grid pattern from one of our five styles, and then choose a grid profile to achieve your ideal finished look.

Flat Grids – available in Colonial, Diamond, Craftsman, Prairie and Double Perimeter patterns.

Contoured Grids – available in Colonial, Craftsman, Prairie and Double Perimeter patterns.

⁸1" contoured grids are not available in matching woodgrains.

today's homeowners are
happily choosing green.

THE ALSIDE LIFETIME LIMITED WARRANTY

Mezzo Windows from Alside incorporate product innovation, manufacturing excellence and uncompromising quality that you can count on, from the day your windows are installed until the day you sell your home. And to make your buying decision easier, Alside backs all Mezzo Windows with a Lifetime Limited Warranty,** along with an optional glass breakage warranty. In addition, our Black Exterior Laminate and FrameWorks Color Collection exterior finishes carry a 10-year fade-resistance warranty – further assurance of lasting performance and value.

GREEN INSPIRATION

Alside Windows and Patio Doors are performance-engineered to help conserve energy and reduce the consumption of fossil fuels used for heating and cooling homes. Using less energy to heat and cool your home not only saves money, it can reduce your home's carbon footprint as well. High-quality products with a long lifespan can also help lessen your impact on the environment.

Protecting our natural resources and choosing more sustainable products are just a few ways we can help safeguard our planet. Together, we can encourage ecological well-being with everyday actions of environmental stewardship.
